## Profile

I am a dedicated full-stack developer with a passion for learning new technologies and solving complex problems. I thrive in dynamic team environments and am committed to delivering high-quality results.

## Work Experience

### Pango, Full Stack Developer

Nov 2021 – Dec 2023

- Worked with .NET Framework, C#, Python, Angular, MySQL, SQL Server, Jenkins, and AWS for full-stack development and server management.
- Team Specialist, created new generic components for the infrastructure, enhancing system modularity and reusability.
- Designed and deployed high-traffic AWS Lambda functions, such as optimizing email billing processes for users as well as registration process modification.
- Implemented new features to simplify back-office operations, such as web-based reporting tools.

### D&L Consulting - Internship, Software Developer

Jun 2021 – Nov 2021

- Worked with JavaScript and Python Django framework.
- Developed and re-engineered a custom extension independently.
- Assisted in various development tasks and contributed to team projects.

## Volunteer Experience

### Hackathon, “Brave Together”

Jan 2021 – Apr 2021

Coding competition – Team leader of a WordPress project. The website presents “Heroes” of the Holocaust and their stories. Worked with PHP and various plugins.

## Education
